OPPORTUNITIES

October is **Black History Month**. This year's theme is "Reclaiming Narratives," and marks a significant shift towards recognising and correcting the narratives of Black history and culture.

This theme underscores a commitment to correcting historical inaccuracies and showcasing the untold success stories and the full complexity of Black heritage. It's about taking control of our stories and honouring our heroes while challenging the narratives that have often overlooked the contributions and achievements of Black individuals both in the UK and globally.

You can use the hashtag #ReclaimingNarratives on social media to find real life stories from people all over the world.

There is a dedicated space on the BHM website that showcases all the related events happening online and across the UK. From learning about afro hair to the black heroes of Mathematics, there is something for everyone.

If reading is more your thing than attending an event, this blog showcases 10 Books by Black British Authors You Should Read. How many have you already read? Which is next on your reading list?!

Another interesting and important topic when considering ethnicity is how the colour of your skin impacts you in the corporate world. In an ideal environment, it shouldn't. However, some companies are still working to improve their diversity and inclusion. You can read more using the BHM's Diversity Dashboard which includes interesting stories from employers such as Coca-Cola, West Yorkshire Police and the Army.

How many black male teachers teach you? Not many, right? That's because there is a lack of black males coming into the education sector. Read more here.
